Exchange Hosting With SecureTide™ (Spam & Virus Protection)

Advantages of Exchange

Companies both large and small benefit from the messaging and collaboration features of running Microsoft Outlook and Exchange.

- Remote, centralized and secure information storage
- Online collaboration anytime, anyplace: meeting scheduling, contact management, document sharing and task management
- Outlook 2003
- Outlook Web Access
- Outlook Mobile Access and Activesync
- Email aliases, domain aliases and email forwarding
- Public Folders
- Distribution Groups
- Domain and User Level Rules
- Outlook 2003; Outlook Web Access; Outlook Mobile Access and ActiveSync
- Blackberry Enterprise Server, GoodLink

Spam & Virus Protection

SecureTide™ is a fully managed email protection service, eliminating up to 99% of unwanted email before it reaches a user's network.

It is a powerful and flexible service that enables organizations of any size to manage email communications with the same level of control and protection as the Fortune 500.

Web-based Control Panel

A&W Consulting simplifies the setup, provisioning, and management of Microsoft Exchange 2003 by creating a complete managed service for administrators and end-users.

KEY BENEFITS

- Exchange Web-based application access
- Empower End Users with Group Meeting scheduling, contact management, & Online Collaboration.
- Disaster Recovery
- Perimeter Protection
- Inbound and Outbound eMail Protection
